

3D Printing Filament

COLOR DATA - PRO Series ASA

Commercial Name: MatterHackers PRO Series ASA

Designation: 3D Printing Material

Manufacturer: MatterHackers

Product Description

ASA is an advanced 3D printing material that combines exceptional thermal and UV resistance, making it an ideal choice for parts that need to function in high-temperature environments or in outdoor conditions. Its UV inhibitor prevents color change and mechanical property degradation, allowing for parts with long-lasting strength and visual properties.

- Unmatched UV resistance
- Exceptional temperature resistance
- High strength and durability

Storage

PRO Series ASA filament should be stored between 15 - 25°C, in its original packaging, in a clean and dry environment. When following these recommended storage procedures the minimum shelf life will exceed 12 months.

Available Material Colors

Black

Jet Gray

Gray

White

Natural

Crimson Red
